NOTES

1. The purpose of this publication is to provide an alphabetical listing of Naval Reserve Officers (other than those on a retired list; NAVPERS 15939 refers) to indicate the seniority of inactive Reserve and TAR (Training and Administration of Reserves) officers, and to provide other information advantageous to the Naval Service.

2. Relative seniority of inactive Reserve and TAR officers is indicated by the use of a six-digit register number with a two-digit subnumber. The subnumber is used to permit additions once primary numbers have been assigned without completely renumbering. For example of seniority, an officer with a register number of 510296-00 is senior to an officer with a register number of 510296-50; however, both are junior to an officer with the number 510295-20.

3. A breakdown of the numbering system is as follows:

Grade		Register Number Series
*1.	Rear Admiral/Commodore	000000-00
	Captain	100000-00
	Commander	200000-00
	Lieutenant Commander	300000-00
	Lieutenant	400000-00
	Lieutenant (junior grade)	500000-00
	Ensign	(Blank)
**2.	Chief Warrant Officer (CWO-4)	960000-00
	Chief Warrant Officer (CWO-3)	970000-00
	Chief Warrant Officer (CWO-2)	980000-00
	Officers on extended active duty (other than TARs)	ACDU

NOTES:
*First digit reflects highest selected rank.
**First digit denotes warrant; second digit denotes highest selected rank.

4. Present rank and date of rank reflect the highest appointed grade. Register number indicates relative seniority in the highest selected grade.

5. The data shown in the column headed "Pay Entry Base Date" is the date which reflects all service for pay purposes. In the case of medical and dental officers, the date shown in this column includes any portion of medical school and internship or dental school while not a member of the Armed Forces.

6. The information published in this register is contained in records maintained by the Naval Military Personnel Command. Errors, omissions, or recommended changes in format should be sent to the Commander, Naval Military Personnel Command (NMPC-93).

7. Distribution of this publication is made to ships, aircraft squadrons, staffs, disbursing officers, and shore stations based on established needs. Justification for additional copies should be submitted with requisition DD Form 1348 to the Commander Naval Military Personnel Command for approval for issue from the Naval Publications and Forms Center, Philadelphia, Pennsylvania 19120.

8. Implementation of the Privacy Act precludes publishing Social Security Numbers.

9. Due to the unavailability of certain data at time of publication, some grades reflect blank register numbers. Questions relating to register numbers should be addressed to Commander, Naval Military Personnel Command (NMPC-93).

TABLE OF OFFICER DESIGNATORS

The officer designator codes are four-digit numbers used to group officers by categories for personnel accounting and administrative purposes and to identify the status of officers. These codes identify, through the first three digits, the categories in which offficers are appointed and/or designated and, through the fourth digit, the status of the officers within the various categories. A listing by the first three digits of the officer designator codes and their description is published herein.
